

See what we have been doing...by the numbers:

Sampled **2** sites in the
Chadakoin River for the
presence of PFAS

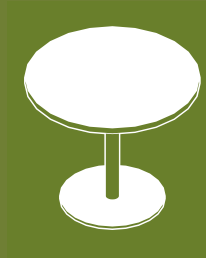

Co-sponsored **3** annual
clean up events including
Chautauqua Lake and the
Conewango Creek

Supported **5** national
initiatives sponsored by
Waterkeeper Alliance including the
Waters of the United States and the
Environmental
Protection Network

Produced **7** extensive comment
letters to the US Environmental
Protection Agency and New York State
Department of Environmental
Conservation on topics such as the
proposed 303d list, sea wall construction
and herbicide permit applications

Attended **8** table events
including JCC EarthFest and the
Jamestown City Market

Attended **9** nationally
sponsored workshops on
topics including
microplastics and PFAS
offered by
Waterkeeper Alliance

Produced **10** public service ads in the
Jamestown Post Journal and the
Jamestown Gazette covering topics
explaining information necessary for lake management

Responded to **19** Community Response
questions mostly concerning environmental
disturbances or DEC permit requests

See what we have been doing with our partners and our surrounding community of supporters:

Corresponded and met with **20** different
organizations who are our partners and
collaborators

Reached **300** supporters with a series of
emailed newsletters, our Spine E-news
